January 20, 1998

Dear Harold,

I just returned from a long weekend visiting my son, his wife and my new grandson, Logan. I have not found the time to dig out Verb's comments on his phisical problems or to address your comments made in letters. But, I believe you want the latest NY TIMES listing on Hersh so am sending this quickly!

Best regards and all,

Paul Haller

Paul

P.S. The rains had much of the Tampa-area under water, so I felt lucky that I could not "see" many of the places I was interested in. Running water might be okay, but standing water is not!!!
